Bridges to Contemplative Living with Thomas Merton is a small-group resource that is ideally suited for groups with four to ten members. Best described as a tool for spiritual development, the Bridges series invites participants to personal spiritual transformation for the sake of a more just and peaceful world. Thomas Merton is widely acclaimed as one of the leading spiritual guides of the twentieth century. He sought for himself and encouraged others also to pursue ongoing spiritual transformation and a life of contemplation. This series is carefully designed to lead participants into a holistic process of growth toward these two goals. While Bridges uses Merton’s writings as a starting point, it seeks above all else to mine the life experience and spiritual depths of those who use it.

“Contemplative living is a way of listening and responding to our everyday experiences by consciously attending to our relationships with self, other, God, and all of nature”.
